Free-World Ships in the Cuban Trade (January 1-August 31, 1962)

DECLASSIFIED

## I. Introduction

DECLASSIFIED

In view of the current concern of the Government of the United States over the shipments of arms and other cargoes to Cuba in Soviet-bloc and Free-World merchant ships, this study was undertaken to determine the patterns of Free-World shipping in the Cuban trade, the numbers and flags of registry of the Free-World ships engaged in such trade, and the companies involved. The study covers the eight-month period January 1 through August 31, 1962, and includes all Free-World merchant ships that have arrived in Cuba from countries other than Cuba during this period. The totals of ships and the number of trips by such ships to Cuba are believed to be conservative. Insofar as ownership of individual ships is concerned, the information presented has been obtained from reliable sources and is believed to be correct. However, this Administration cannot vouch for its accuracy in every instance.

## II. Free-World Ships in the Cuban Trade

During the period January 1 through August 31, 1962, a total of 433 merchant ships (including 43 tankers) flying the flags of 22 Free-World countries made a total of 572 trips to Cuba. Ships flying the flags of Greece, the United Kingdom, the Federal Republic of Germany, and Norway accounted for 61 per cent of the total ships involved and 60 per cent of the total trips to Cuba. No United States flag ships called at Cuban ports (other than the U. S. Naval Base at Guantanamo Bay) during the period under study. The number of Free-World ships in the Cuban trade and the number of trips by such ships to Cuba during the period were more than double comparable figures for Soviet-bloc shipping. The following listing shows the ranking of the various Free-World countries whose ships engaged in trade with Cuba during the period January 1 - August 31, 1962, arranged in order of the number of ships involved and the number of trips:

<u>Flag</u>	<u>Number of Ships</u>	<u>Number of Trips</u>
1. Greece	97 (22%)	125 (22%)
2. United Kingdom	78 (18%)	110 (19%)
3. Germany (Fed. Rep.)	46 (11%)	50 (9%)
4. Norway	42 (10%)	55 (10%)
5. Lebanon	25	29
6. Italy	19	22
7. Japan	19	20
8. Denmark	17	33
9. Liberia	16	18
10. Sweden	15	19
11. Yugoslavia	14	20
12. Netherlands	12	14
13. Spain	9	30

DECLASSIFIED

DECLASSIFIED

<u>Flag</u>	<u>Number of Ships</u>	<u>Number of Trips</u>
14. Panama	8	8
15. France	5	5
16. Belgium	3	3
17. Finland	3	3
18. Chile	1	3
19. Morocco	1	2
20. Honduras	1	1
21. Switzerland	1	1
22. Turkey	1	1
Totals	433	572

A number of ships in the Cuban trade also trade with Communist China, and a number of them are known to have carried Title I, Public Law 480 cargoes.

The annex to this study provides details on the various Free-World ships in the Cuban trade during the period January 1-August 31, 1962. It gives the names of the ships, the flags of registry, the dates of arrivals in Cuba, and, as appropriate, the ship owners, agents, and associated companies.

### III. Free-World Shipping Companies in the Cuban Trade

The great majority of the shipowners (or agents) involved in the Cuban trade operated only a few ships into Cuba during the period under study. By far the most important group of shipping companies in the Cuban trade during the first eight months of 1962 was the group consisting of the associated companies of London & Overseas Freighters, Ltd.; Rethymis & Kulukundis, Ltd.; and Counties Ship Management Co., Ltd. This group accounted for 28 ships that made a total of 65 trips, or more than 10 per cent of the total trips made by Free-World ships to Cuba. Of the 43 tankers in the Cuban trade, sixteen were associated with this group of shipping companies.

The annex to this study relates, as appropriate, the Free-World ships in the Cuban trade with the ship owners, agents, and associated companies.

### IV. Conclusions

Conclusions that may be drawn with respect to the Free-World ships and shipping companies engaged in trade with Cuba during the period January 1 - August 31, 1962, are as follows:

DECLASSIFIED

DECLASSIFIED

- 1) American ships and shipping companies are not engaged in trade with Cuba to any appreciable extent.
- 2) The traditional European maritime nations are providing the bulk of the Free-World shipping for trade with Cuba.
- 3) Free-World ships greatly exceed in number Soviet-bloc ships trading with Cuba.
- 4) Since the world's merchant fleet numbered 17,426 ships as of January 1, 1962, and since Free-World ships engaged in trade with Cuba constitute only 2 1/2 per cent of this total, it is doubtful that the Cuban trade is of any great significance in solving world shipping problems.
